

I would greatly appreciate you not messing with our current no call list standards, if a bank or other institution were allowed to weaken our current law we might as well have no law in wisconsin. I enjoy having an evening without the harrassing from people who cant even say my name correctly, if I want their services I will be sure to call them, otherwise they can leave me alone, as well as my states laws.

Even with an unlisted number I have had the calls, and now they are calling my cell phone, since they cant call my home any longer, make them stop, they dont have the right to interferr with my life, unless they would like to pay my current wages per hour or any portion of an hour to discuss with me changing whatever is already working for me. Then they can call me and I will be happy to talk on THEIR dime, not mine, time is money, and they need to realize we have our laws for a reason.
